SPECIAL OFFER! Thomega Canada Remembers invites you to purchase additional copies of the new inspiring book *Crash Harrison: Tales of a Bomber Pilot Who Defied Death* by Deana J. Driver. "This is a wonderful story of courage in the face of danger, about a young farm boy from the Canadian Prairies who has a dream to fly and follows that dream into the Royal Canadian Air Force. This book would make a great read-aloud for teachers to share with their students about a Canadian war hero. Grade 6 students and up would enjoy learning about Crash. He is a wonderful role model for young people about following your dreams, making the best of things in the face of adversity, being brave, modest, and humble. This book is a must for any classroom and school library." - Mary Harelkin Bishop, Teacher-Librarian and Literacy Consultant (retired), Saskatoon Public Schools

We gratefully thank the many Ontario Legions that have partnered with Thomega to help deliver this valuable programming to schools in their regions, in some cases, now in school curriculums!

Important Announcement regarding Ontario Legions and Canada Remembers Commemoration School Project: "Won't be long before we are all gone, who's going to carry the torch for us after that?" Stanley Gardiner, WWII Veteran (quote from *Canada Remembers - A Veteran Reunion Documentary*)

With conflict raging in the heart of Europe once again, Veterans' experiences remind us about the ravages of war and how they never want to see history repeated. Canada Remembers School Educational Programming is more important now than ever before!

On behalf of the Thomega Canada Remembers Commemorative School Project team, we confirm our continuing collaboration with (currently) over 250 Legion Branches from coast to coast – reaching tens of thousands of students all across Canada who are "carrying the torch" since 2016.

We are pleased to expand a commitment to bring the sacred stories of Veterans' service and sacrifice to students in Ontario and in schools within every province. We are also looking forward to pursuit of a French version that will address a multitude of requests from hundreds of French language educators and Legions within those areas.

"The Thomega Canada Remembers Commemorative School Project is an excellent complement to other in-school endeavours by Legion Branches and is perfectly timed with its remote option process; it was also exciting to see that this programing was recently featured on WPBS New York, a further validation of the outstanding content."

- Derek Moore / Ontario Command, President

"After reviewing each of the 47-minute episodes and the accompanying educational plan, I am whole- heartedly recommending this excellent project. The Canada Remembers programming is also sanctioned by The Royal Canadian Legion Poppy and Remembrance Committee, meaning all Ontario Legions are authorized to utilize Poppy funds under the Youth Engagement criteria for this school project. It's a great partnership."

- Lynn McClellan / Provincial Youth Educational Chair

We commend the Ontario Legions that have previously participated with the Canada Remembers Commemorative School project and are looking forward to equipping more schools across Canada in 2023. This program will help your Legion continue to fulfill the youth engagement mandate and increase awareness through a captivating visual medium that Respects and Honours the Service and Sacrifice of all Veterans.

Please see the enclosed order form. If you have any questions. just call 647-865-2726 or visit www.canadaremembers.net
